REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: While Ooshima (JP 9-259277 A) does mention fluctuations in an image recognition environment, the fluctuations in Ooshima appear to be positional deviations in the sensed images that prevent the appropriate recognition of the patterns in these images. Ooshima attempts to compensate for these positional fluctuations by creating a plurality of reference patterns that have various offsets. However, Ooshima fails to teach producing fluctuation information for changing recognition results in order to avoid mis-recognition caused by mistakenly recognizing an object that is not a detection object as being a detection object (i.e., avoiding false positive recognitions). To the extent that the offsets applied to the reference patterns can be considered "fluctuations," they are not produced to prevent false positive recognitions, but instead are designed to prevent a "detection object" from not being recognized as such (i.e., a false negative recognition). Therefore, Ooshima fails to teach or suggest producing the fluctuation variously defined in claims 1-4 and 6-7. Furthermore, the recognition of Ooshima only takes into account the reference data read from the reference dictionary. While these patterns may be created using an offset that might be construed as a "fluctuation," only the reference pattern is actually taken into account by the recognition process. In contrast, claim 5 requires the recognition process to take into account both the recognition dictionary *and* produced fluctuation information. Because the recognition processing of Ooshima is based solely on the reference pattern from the dictionary, and there is no suggestion that such recognition processing can also take into account a produced fluctuation, claim 5 is also allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

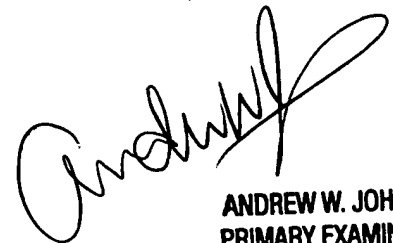

2. Claims 1-7 are allowed.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrew Johns whose telephone number is (571) 272-7391.
